SUMMARY

My name is Juan I am a soon-to-be graduate from Holberton Coding school where I've honed my skills as a full stack developer. My training in holberton has equipped me with a diverse tech stack that allows me to build web applications with technologies like python, flask and html, all while learning to work as a team as well to develop our capstone project called healhub where I was involved in the front end and api implementation. Passionate about solving complex problems through code, I'm eager to bring my blend of technical skills and creative thinking to a dynamic team where I can contribute to meaningful projects and continue growing as a developer.

SKILLS & TECH STACK

- Programming Languages: Python, C, JavaScript, SQL.
- Frameworks: Flask
- Tools: Microsoft Office
- Other: Fluent in English and Spanish

PROFESSIONAL EXPERIENCE

Holberton Coding School – San Juan, Puerto Rico   June 2023 – March 2024 (Expected Graduation)
- Currently enrolled in a Certificate program in the foundations of software engineering.
- Worked in partners remote and on campus to develop good teamwork and communication skills.
- Created and presented on 5 minute topics in front of peers, for example: Example of presentation you created.

Holberton Project - Simple Shell: https://github.com/JCRoooD/holbertonschool-simple_shell
- Created a simple command line interpreter, displays prompt and allows input of a command.
- Built with: C programming language.
- Role: Lead developerworked with a partner to complete the project

Holberton Project HBNB (AirBnB Clone): https://github.com/jnieves2177/holbertonschool-AirBnB_clone_v4
- Fully functional web app that allows you to filter places based on certain characteristics. Built upon Python for the back end, JavaScript , HTML, and Css for the front end, MySQL with Flask framework for the database. Also has a console to interpret the classes
- Role: Lead developer in the project, worked with a partner to complete the project.

EDUCATION

Holberton School, San Juan, Puerto Rico - Full-Stack Software Engineer   Expected March 2024
Peru State College, Peru, Nebraska - Bachelor of Science in Accounting   May 2022
Taft College, Taft, California - Associates of Arts, Business Administration   May 2020
